

MD TAIBUR RAHAMAN

AI, IoT & Robotics Engineer | Full-Stack Developer | Technical Founder

Dhaka, Bangladesh | +880 1768-721112 | taibur.rahaman@northsouth.edu

GitHub: github.com/Taibur-Rahaman | LinkedIn: linkedin.com/in/taiburrahaman

PROFESSIONAL SUMMARY

Execution-driven engineer and technical founder with hands-on experience across artificial intelligence, IoT and robotics, full-stack web development, WordPress engineering, and blockchain. Proven ability to design, build, and deploy production systems and research-grade projects, including defense-target capstone systems. Strong leadership, communication, and business execution skills, with a track record of founding and operating multiple technology ventures.

SKILLS

Programming & Web: JavaScript, TypeScript, Python, PHP, HTML5, CSS3, MySQL, REST APIs, Responsive UI

AI & Machine Learning: Deep Learning, Computer Vision, Medical Image Segmentation, PyTorch, MONAI

IoT & Robotics: Arduino, Embedded Systems, Sensors, Actuators, Inverse Kinematics, Gait Control, Automation

Blockchain: Solidity, Smart Contracts, Hardhat, OpenZeppelin, Web3, Decentralized Applications

WordPress: Custom Themes & Plugins, Elementor, Gutenberg, WooCommerce, bKash & Nagad Integration

Tools & Business: Git, GitHub, Model Context Protocol (MCP), Digital Marketing, Branding, Team Leadership

Languages: English (Professional), Bengali (Native), Urdu and Hindi (Conversational)

EXPERIENCE

Founder & Technical Lead 2020 - Present

DXTrade, Omix Solutions, Roboflex, Dokanxpress · Dhaka, Bangladesh

- Founded and operate DXTrade, a multi-seller reselling marketplace (500+ products, 200+ verified sellers) with a zero-investment reseller model, supplier network, and buyer protection.
- Run Omix Solutions, a digital agency delivering marketing, branding, video, and advertising for food brands and SMEs.
- Built Roboflex, a Bengali robotics education platform with a "Zero to Robotics" curriculum, live classes, and project-based learning.
- Own product, engineering, marketing, and operations end to end across all ventures.

Marketing Executive & Re-Seller Trainer Jan 2020 - 2024

Gadget Ghuri · Dhaka, Bangladesh

- Drove product marketing, reseller onboarding, and conversion-focused campaigns for consumer electronics until the company wound down in 2024.

Leadership & Operations (Sub-Executive, In-Charge, Senior Member) 2020 - 2024

NSU ACM Student Chapter · Dhaka, Bangladesh

- Sub-Executive, Team Promotions (Aug 2023 - Apr 2024): led promotional strategy, outreach, and chapter visibility.
- Sub-Executive, Team Provision (Mar 2022 - Aug 2023): managed logistics, resource planning, and event operations.

- In-Charge, Team Provision (Feb 2021 - Apr 2022): directed provision operations and cross-team workflows for large-scale programs.
- Senior Member, Operations & Logistics (2020 - Feb 2021); awarded Best Member, Fall 2020.

SELECTED PROJECTS

Hand Sign Language Translator (IoT) - University Capstone

- Wearable IoT system that captures hand and finger motion and translates sign gestures into text and speech in real time; designed for silent tactical communication and accessibility. Military-target application.

Hexapod Bot - University Capstone

- Six-legged autonomous walking robot for rough, unstable terrain using inverse kinematics and servo gait control; built for reconnaissance and all-terrain mobility. Military-target application.

Agent2Wp - WordPress MCP Plugin

- Plugin connecting AI agents (Claude, Cursor) to WordPress via the Model Context Protocol; supports posts, files, WP-CLI, Elementor, and WooCommerce automation. Built with PHP.

MRI-Based Brain Tumor Detection

- AI medical-imaging system for brain tumor detection and semantic segmentation on 3D MRI data using PyTorch, MONAI, and SegResNet.

BlockMed / RxGuard - Blockchain Healthcare

- Blockchain-based platform for secure prescriptions, tamper-resistant medical records, and medicine batch verification, built with Solidity, Hardhat, OpenZeppelin, and React.

Multi-Tenant CRM System

- Secure, AI-enhanced multi-tenant CRM integrating Gmail, Telegram, Jira, and telephony APIs (TypeScript).

EDUCATION

B.Sc. in Electrical & Computer Engineering <i>North South University, Dhaka, Bangladesh</i>	2019 - 2025
---	-------------

- Completed all required degree credits and delivered capstone projects in IoT and robotics.

Higher Secondary Certificate (HSC) <i>Ideal College, Dhaka, Bangladesh</i>	2017 - 2019
--	-------------

AWARDS

Best Member Award, Fall 2020 - NSU ACM Student Chapter
